INSTRUCTOR NOTE

Ask students to locate the three white stripes on the Chicago flag. Remind students that these stripes represent the North, West, and South Sides of the city. Set the stage for students by telling them that they are going to go on an imaginary tour of Chicago. During this special tour they will explore Chicago’s past and its present, learning about events that happened long ago and discovering life in Chicago today. Ask students to pay close attention while you, their tour guide, take them on the trip of a lifetime. Review the following vocabulary list with students prior to beginning. Remember to read the clues—but not the answers!

Vocabulary

- landmarks—famous buildings
- waterway—a body of water that is used for transportation
- industry—the act of making things in a factory
- civilization—a people or a nation
- products—goods, things that people use to live
- swaying—moving back and forth
- resident—someone who lives in a place
Welcome to the Circle Line Tour of Chicago! As you know, Chicago is one of the greatest cities in the world. It is the third largest city in the United States. Many of the sites and buildings we will discuss were built after the Chicago fire. Today we are going to play a game about the famous sites and landmarks to see as you visit Chicago. I am going to read a clue, and I want you to try to guess what the landmark or site is. Use your sheets to match clues to locations. Listen carefully!

Home of the Chicago Bulls and Chicago Blackhawks! (1. C. United Center)

I am one of the Great Lakes, and the state that is directly northeast of Illinois is named after me. (2. G. Lake Michigan)

I am a home for many different types of animals from around the world; I am named after the president on the penny. (3. D. Lincoln Park Zoo)

I used to be the tallest building in the world. I am still the tallest building in Chicago as well as in the United States. I am named after a retail store. (4. E. Sears Tower)

You can find my name on chewing gum; I am the home of the Chicago Cubs. (5. F. Wrigley Field)

Even though the Chicago Fire of 1871 was all around me, I was left standing. Chicago needed a lot more of the first word in my name to stop the fire. (6. H. Water Tower)

I am the home of the White Sox. (7. R. U.S. Cellular Field, formerly Comiskey Park)

My exhibitions feature famous paintings and sculpture. Two lions stand guard at my front entrance. (8. S. Art Institute)

Rebecca Heald packed her belongings in a trunk when she moved to come live here with her husband. (9. O. Site of Fort Dearborn)

I am not as big as the other one in the city, but many people land here every day. (10. I. Midway Airport)

I am a famous waterway named after the city. (11. K. Chicago River)

I am a museum where you can learn all about Chicago’s history. (12. A. Chicago Historical Society)
I am the only remaining building from the 1893 Columbian Exposition. Today I am a museum where you can visit a coal mine, see a model train, or “fly” in an airplane. (13. L. Museum of Science and Industry)

I am a Golden Lady, and I am the only statue in Jackson Park. I am a symbol of four centuries of civilization after Columbus came to the New World. (14. M. The Republic)

I am a neighborhood that many people visit to eat great Chinese food and shop in my stores that sell food and products from China. (15. J. Chinatown)

I am a building who is named after the first signer of the Declaration of Independence. I have three giant Xs on me that help me from swaying too much when it is windy. (16. N. John Hancock Building)

I am a beach named after a tree. (17. P. Oak Street Beach)

I am a museum that was named after the first non-Indian permanent settler of Chicago. You can learn about African American history here. (18. B. DuSable Museum of African American History)
Activity

Explain to students that they are going to play a game about the famous sites and landmarks of Chicago.

1. Have students turn to the Landmark Matching Game activity sheet in their scrapbooks. To familiarize themselves with the names of the landmarks and sights, have them read the list aloud. For each location, ask any students who have ever been there to raise their hands. Are there any places students have never heard of?
   - Read the narrative to students. When you have read a clue, allow the students time to try to match it to the proper location.
   - After you have been through the list once, assist students in figuring out the harder-to-guess names and places. Students who made matches that others did not can also offer hints.
   - If you have a map of Chicago, begin by marking where your school or institution is located. Then review the list again and mark each site so students can see geographically where these landmarks are located throughout the city and in relation to your institution (addresses are provided). You can lead this activity, or you can invite students to approach the map and take turns finding and marking landmark locations. If you have brochures or postcards with pictures of some of the landmarks, add them to your map.
   - Ask students if they would like to add any landmarks to the list. Are there other places they consider landmarks? Do they know both the names and locations of these new additions? If they do not know the locations, brainstorm how that information can be found.

MATERIALS
- Landmark Matching Game activity sheet (one for each student)
- pencil (one for each student)
- map of Chicago to display at front of room (optional)
Landmark Matching Game

Match the clues and answers by writing the letter of the location by the clue.
