

NHD Explore

NHD Explore (NHDx) is a series of programs during the National History Day Contest that allow students to further their love and learning of history.

Numerous organizations have opened their doors to participants of the contest as well as their teachers and families.

We have a new registration process for 2018. NHDx requires you to sign up your “unit” together. A unit can be as small as one NHD student with her or her parent or teacher, and can be much larger (we recognize that many NHD students travel in a group that contains students, teachers, parents, and extended family members.)

NHDx registration will open at 10am ET on Wednesday, May 16 and close at midnight ET on Thursday, May 24.
